**Summary of the Project:**

"The Leaders Factory" is designed to guide all young people toward innovative approach and aims to deliver proper understanding the work of civil society organizations (CSO) and the concept of creation of transparent and responsible social enterprises.

Education contributes, from an early age, to the socialization, integration and empowerment of individuals. It is also a means of achieving personal fulfillment which can help to enhance the employability of young people. Young people demand foreign language teaching, preparation for the educational exchanges and mobility programmes run by the European Union; they are interested in many other fields and they ask for a stronger emphasis on practical subjects. However, setting out to develop balanced, all-encompassing curricula which are not overloaded is a challenge. They should be designed to provide the necessary knowledge and skills and also to reflect the multicultural nature of our societies.

This project will help the hosting and the partner organizations by providing participants with advanced human resources tools for personal development and key competencies in these areas: communication skills, leadership and fellowship skills, becoming aware of the importance of life mapping and developing, to improve time and stress management skills, to improve ability to set up goals, plan and implement etc. This project will help young people to organize their life and work, achieve balance and success cross over difficulties and challenges.

This project will define new priorities for offering learning opportunities to the target group at different stages. That's why this project contains this main components:

- to increase investment in human resources;
- to develop learning centers;
- to promote new important skills; etc.

### Accommodation:

The venue of the seminar will be in a two-storey scout centre, situated in the center of Differdang. The building is very nice, worm and with everything that we need. There is dining room, activity room, kitchen and sleeping rooms.

The place has a wheelchair access.

There is a possibility to use a WiFi internet on place, so do not hesitate to take with you your laptops, as we may also need them during some of the workshops.

### Transportation:

Please, inform us as soon as possible how the representatives of your organisations are going to get to the place, and what time and where you will arrive.

It is important to keep the arrival and departure dates. DO NOT buy out the ticket before you get the agreement from the part of the organisers to do it.

Remember that you must choose the **cheapest possibility** for your means of transport! We recommend to use **Ryanair** ([www.ryanair.com](http://www.ryanair.com)) and **Wizzair** ([www.wizzair.com](http://www.wizzair.com)) flights, as they are much cheaper comparing to the others. As the destination choose **Frankfurt Hahn or Brussels Charleroi** airport. From this two Airports you have **Flibco bus** ([www.flibco.com](http://www.flibco.com)) really cheap way to get to Luxembourg, its on every 2 hours.

If you don't have the possibility to come by Ryanair or Wizzair, then use the destinations of Metz (France) or Frankfurt (Germany), or Luxembourg (but these flights are normally more expensive...).

Very important is that you **KEEP ALL THE BILLS, TICKETS AND BOARDING PASSES** from your travel, so that we were able to reimburse you the costs.

**max travel costs is 170 eur per participant**
